## JOEL GOTT

### CHARDONNAY

*Monterey*

---

**WHAT:**

Our Monterey Chardonnay is fermented in stainless steel, keeping the wine clean and crisp—just like our favorite Chablis.

**WHERE:**

The cool, breezy weather of Monterey Bay allows for a longer period of maturation which allows the grapes more time to develop classic varietal characteristics. The climate produces a Chardonnay with aromas of orange blossom, green apple, and citrus and with a bright acid structure.

**WHY:**

The vineyards of Monterey consistently provide ideal fruit and exemplify our winemaking goal: a natural balance between sugar and acidity. Because of the low yields from this vintage, the fruit had intensified aromas and flavors, creating a more full-bodied, weighty wine.

**ALCOHOL:** 13.9%

**RELEASE DATE:** November 2009
